

# The Game Jam Survival Guide

The Game Jam Survival Guide is an insider view of game jams packed full of expert advice; leading with tips and tricks on how to build a great game with just 48 hours; but clearly defining what should be avoided at all costs during Game Jam mayhem. The reader is led through each half-day phase; from the beginning of your quest in hours 1-12 to breaking through the wall on day two and finally reaching the finishing line in hours 37-48. Although the book is intended for beginners and experts alike, the reader will already know how to program (in any language). He or she will love games and want to learn how to best make their own game in a wild and crazy 48-hour period.
