

## The House That Jack Built: Jack Munday, Green Bans Hero

This is the story of how an ordinary bloke from the bush became the key figure in a movement that would change the shape of our cities and bring about lasting political and legal reform. This is the story of the house that Jack Munday built. Without the green bans movement of the 1970s, Sydney and many other cities would look very different. Pulling together an unlikely alliance of environmentalists and union players earned Jack Munday a reputation as both the best-known unionist and best-known conservationist in Australia. Under his leadership, the movement fought against the slash-and-burn philosophy that almost saw The Rocks fitted out with high-rise buildings, a highway through the centre of Glebe and total development of Centennial Park. In this long-awaited book James Colman reflects on Jack's remarkable life and his ongoing legacy. Munday overturned the bulldozer mentality of the 1960s and 1970s and helped to persuade Australians everywhere to cherish and protect the heritage of special buildings, places and sites.
