

## The Cup of Coffee: The Password Organizer Log That Looks Like a Regular Book (Hidden in Plain View) (Volume 7)

THIS IS NOT A NOVEL! That's right, this is NOT a fiction book. The Cup of Coffee is a Password Organizer Log intentionally designed to look like a regular book. The creatively deceptive cover of The Cup of Coffee helps to camouflage and protect the information it contains so that anyone who sees the book will have no idea that it contains your valuable password and account information. The Cup of Coffee is a practical solution to help you organize and keep track of all your passwords in one convenient spot and solves the problem of misplacing or forgetting them. The easy-to-use format provides you with quick access to your password information and is designed to be customizable by you. Measuring 8 x 5, it has space for 200 entries, with 2 entries per page. Its handy size contains ample room to write down all of your accounts and internet sites, their corresponding passwords, the usernames to each, password hints, PINs, security questions, and a space for additional notes. The top right corner of each page has a spot to alphabetize the entries to suit your own specific needs, since you may require more entries under one letter than another. Now you can keep your important password information artfully concealed yet organized in style with The Cup of Coffee the unique and distinctive Password Journal. Because as we see it, the very best hiding place is in plain view.
