

The Savvy Cyber Kids at Home: The Family Gets a Computer

Keeping pre-teens and teenagers safe on the internet starts before our children know what a keyboard is. Like most important life lessons, teaching online safety begins in early childhood. The Savvy Cyber Kids are just the right playmates for pre-school children and Emma and Tony speak their language. In *The Savvy Cyber Kids at Home: The Family Gets A Computer*, children learn to protect their personal information, like their name and physical location through their secret Savvy Cyber Kid identity. Through traditional early childhood teaching tools, this colorful book reinforces the message of online safety with pictures and rhyme. This playful tool and the Savvy Cyber Kids friends teach our children to keep their information private before they start playing in the virtual world.
