

Treasures from Aladdins Cave: The Knowledge of Africa Emerges from Underground (Short non-fiction work) (Secrets from the Archives Book 6)

The English began looking for the fabled city in 1788, but for forty years every European who reached it paid with his life. Timbuktu was taboo. No Christian could enter it and live. But still they tried. When Westerners finally reached it, The fabulous city was nothing more than a dirty collection of mud huts. Disappointed, they turned away without discovering its secretsfor Timbuktus greatest treasure was not its gold but its documents, the secret deposit of centuries of African learning and knowledge. Most lay beneath the very feet of European treasure hunters, smuggled away centuries before and hidden in basements and caves. There they remained for centuries more, and when the secret trove began emerging in the twentieth century it revealed a startling history of one of the greatest civilizations the world has ever known. Each short story in the Secrets from the Archives series reveals the true life adventures of intriguing historical documents. Explore a world of spies and secret chambers, startling discoveries and centuries-old mysteries. Discover the secrets from the archives.
