

Tupiniquim Protestant: A simple message

Thousands of people saw the benefits of faith. Now through a full version, without academic protocols, originally an adventure through the protest & love. 20 years working hard in the technology industry, I was really lost, a workaholic guy. I discovered the true meaning of life through Jesus. 30 years of church or 20 years of professional experience did not help me, only the spirit of God speaking through a dream warned me about the urgency to share my thoughts about the true learnings of gospel. This is an urgent matter, the spirit says to my heart.
