

## Life in Hanoi

Can you imagine what its like to move to a country like Vietnam and reinvent yourself?Life in Hanoi is a series of stories of some amazing expats who did just that. Like the author, Pam Scott, these otherwise ordinary men and women took deliberate steps to invent a life for themselves in the exotic city of Hanoi. They came from a mixture of cultures and backgrounds, but they were not diplomats and high-flyers living in expat compounds on expense accounts. They all had one thing in common, a love of this beautiful Vietnamese city and its people.Life in Hanoi reveals that you dont have to be brilliant or famous or have some unique talent to try living in a completely different culture. All it requires is the desire and a little courage to step out into the unknown and dare to be different.
