

FIFTY BOARDGAMES YOU CAN SELL ON EBAY TO MAKE GOOD PROFITS USING BUY IT NOW (WHAT TO SELL ON EBAY)

This booklet is for the UK Ebay site. It may prove useful however, for our American cousins. A few years back you could find all manner of items to sell on ebay, but it is not so easy today. In those days people were not so knowledgeable as they are today and this has been brought about by the great number of TV programs and books on what is collectable. However, having said that, it is still possible to make steady profits by selling used games and toys. This book is primarily concerned with the former and I have provided you with a list of fifty board games (and a few non-board games) which can still be bought relatively cheaply and on which you can still make reasonable profits. By profits, I mean anything from ?5 to ?25 per game. You may think that profits of ?5 are not worth doing, but it is surprising how these can add up over a year. I am not going to insult your intelligence by suggesting you will make your fortune, but you can certainly make enough over a year to pay for a good holiday. And, of course, there will be times when you find a game that will show you a profit of ?25+.
