

Youre Not Getting Better, Youre Getting Older

How many times have you heard someone utter the phrase Youre not getting older, youre getting better? Well, not anymore! Youre getting older . . . and heres the book to illustrate just how old you are. Maybe there is some small measure of truth in that phrase, but only if you can ignore worn-out knees, failing eyesight, having the sex appeal of a red cabbage, hair loss (or growth in all the wrong places), menopause, arthritis, osteoporosis . . . Life as you knew it parties, spontaneity, climbing a flight of stairs, fun is over. No, you are not getting better. You are getting older, slowly, painfully, irrevocably. In no time at all, youll be ready to hang a DOA tag on your big toe in preparation of the coroners arrival.
